Rating: 3.5

1st paragraph:

"Blood and Roses" by Sylvia Day is a romance novel where the protagonist characters get entangled into a highly complex romantic relationship. It is a story about attraction, trust, and all the problems associated with being close to a person in spite of one's problems and complications. Each of the characters has an individual personality and emotional characteristics that create conflict throughout the story. Without spoiling anything for you, I would say that this novel leaves the reader in suspense about the development of the relationships between the characters.

2nd paragraph:

All in all, I found this book very interesting, although I would give it a rating of 3.5/5. The development of characters, the impact of their personalities on their interaction and the sufficient amount of conflicts kept me engaged and wanting to go on reading it. Sometimes, though, there were moments when the plot felt a little bit slow and some of the characters did not manage to connect with me. In addition, sometimes the choices of the characters irritated me since they led to unnecessary complications. Despite the fact that I did not like everything about the book, I really enjoyed its emotional side and character development.

3rd paragraph:

My recommendation for the book *Blood & Roses* would be to people interested in romantic stories full of drama and conflicts\ . In my opinion, a person who enjoys books focused on character relationships will like it more than a person interested in action or mystery\ . At the same time, *Blood & Roses* can be a nice choice for those who like stories where the characters struggle with personal problems\ . All in all, it is an entertaining book with well\ -developed characters, even though it did not become my favorite one\ . That is why I gave it a rating of 3\ .5 stars\ .
